

PRANAV MEDHE

Full Stack Web Developer

Pune 411062, India | +91 9322928190 | pranavmedhe15@gmail.com | linkedin.com/in/pranavmedhe | github.com/pranavmedhe

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with hands-on experience building responsive web applications using React, Node.js, Express, and MongoDB. Delivered 10+ projects for startups and SMEs, achieving up to 40% improvement in page load times and 25% increase in user conversion rates. Proficient in RESTful API design, CI/CD pipelines, automated testing, and secure authentication systems. Currently pursuing B.E. in Computer Science (graduating July 2026); seeking a full-time developer role to drive impactful product development.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST API Design, JWT Authentication

Database: MongoDB, Mongoose, SQL (basics)

Testing & QA: Jest, Cypress, Automated Testing

DevOps & Tools: Git, GitHub, CI/CD Pipelines, Postman, VS Code

Other: Role-Based Access Control (RBAC), Third-Party API Integration

WORK EXPERIENCE

Freelance Full Stack Developer | Self-Employed | 2023 – Present

- Designed and delivered 10+ responsive web applications for startups and SMEs using React, Node.js, Express, and MongoDB, improving page load times by up to 40% and increasing client user conversion rates by 25%.
- Architected and maintained RESTful APIs, integrated third-party services, and implemented JWT-based authentication and role-based access control (RBAC) to ensure secure data handling.
- Established CI/CD pipelines and wrote automated tests using Jest and Cypress, reducing release defects and accelerating delivery cycles.
- Collaborated directly with designers and stakeholders to translate business requirements into scalable, maintainable software solutions.
- Mentored junior developers on best practices in code quality, version control, and testing.

EDUCATION

Bachelor of Engineering in Computer Science (Pursuing)

DY Patil School of Engineering and Technology, Pune | Jun 2022 – Jul 2026 (Expected)

- Relevant coursework: Data Structures, Algorithms, Database Management Systems, Web Technologies, Software Engineering.
- Led a team project to design and build a full-stack e-commerce prototype using React, Node.js, and MongoDB.
- Completed multiple individual full-stack projects demonstrating end-to-end development skills.

KEY PROJECTS

E-Commerce Platform (React, Node.js, Express, MongoDB)

- Built a full-featured e-commerce web app with product catalog, cart, user auth, and order management; led a 3-member team from requirements to deployment.

RESTful API Service *(Node.js, Express, MongoDB, JWT)*

- Developed a secure REST API with JWT authentication and RBAC for a client SaaS product; integrated automated testing (Jest + Cypress) achieving 90%+ test coverage.

Startup Web App (Performance Optimization) *(React, Node.js)*

- Refactored an existing React application for a startup client, reducing page load times by 40% through code splitting, lazy loading, and API response caching.

ADDITIONAL INFORMATION

- Open to full-time opportunities, internships, and contract roles in web development.
- Available to join immediately upon graduation (July 2026) or earlier for internship/contract work.
- Strong communication skills; experienced working directly with clients and cross-functional teams.
